

**Picture Frame Instructions**

1. Choose a favorite picture of yourself that you would like to include on your album cover. Have an adult help you trim your picture if it is too large for the frame.
2. Cut out the frame and the center opening along the dashed blue lines. Position and tape your picture to the back of the frame, with the picture facing out. Be sure not to let the tape show on the outside of the frame.
3. After you have added your picture, fold the frame along the blue dotted center fold line. Fold the frame along the two additional fold lines to create a base for the picture frame.
4. Cut slits in the bottom and top along the short blue dashed lines. Interlock the two cut-out slits in the base flaps of the frame to create a secure base.
5. Set up your picture frame in a special place to help you remember the fun time you had learning about Melody and her exciting life in the 1960s!
